## BIOGRAPHY

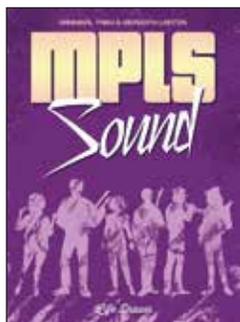

### THE TWILIGHT MAN - NEW Koren Shadmi

Format: 20 x 27.4 cm, hardcover, color, 168 pages, one shot, October 2019

*We recognize him as our sharply dressed, cigarette-smoking tour guide of The Twilight Zone, but the entertainment business once regarded him as the “Angry Young Man” of Hollywood. Before he became the revered master of science fiction, Rod Serling was just a writer who had to fight to make his voice heard. He vehemently challenged the networks and viewership alike to expand their minds and standards—rejecting notions of censorship, racism and war. But it wasn’t until he began to write about real world enemies in the guise of aliens and monsters that people lent their ears. In doing so, he pushed the television industry to the edge of glory, and himself to the edge of sanity. Sterling operated in a dimension beyond that of contemporary society, making him both a revolutionary and an outsider. Next stop...The Twilight Man.*

## MŒBIUS ŒUVRES

**Format:** 24 x 32 cm, hardcover, color, 48-120 pages, 10 volume series

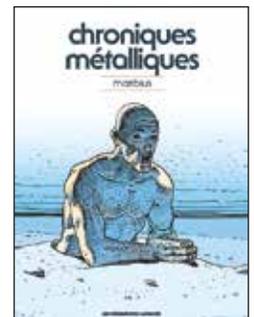

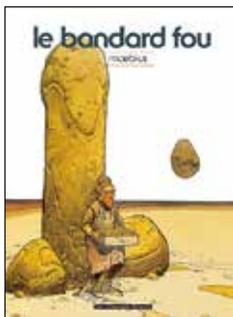

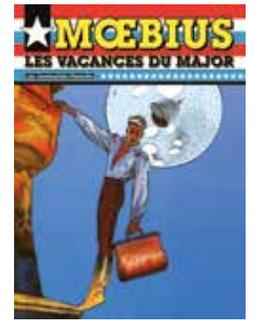

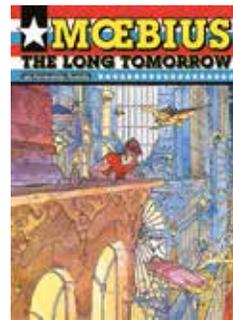

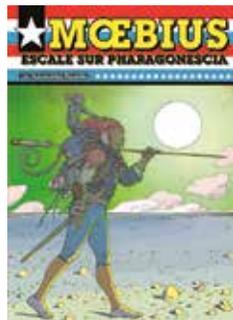

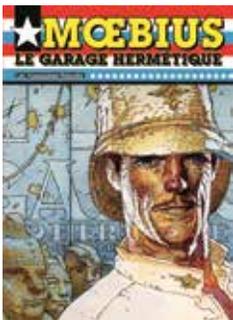

**Omnibus rights sold:** German

Classic re-editions of Mœbius' works in a new collection that gathers his mythical short stories, originally published in the pages of Métal Hurlant and other great BD magazines of the 1970s–1980s, in addition to his most famous titles. This luxurious collection contains the absolute must-have of Mœbius' oeuvre, as well as other treasures not to be missed. During the 1970s, Jean Giraud, known under the cartoonist name Gir, decided to create for himself another artistic personality. Having up until then only illustrated a classic western story (Blueberry), he decided to use a new pen name, Mœbius, to explore different styles and types of comic book art, thus revolutionizing modern French comic books under the influence of American underground art and the counter-culture wave. Co-founder of Métal Hurlant magazine and Les Humanoïdes Associés, Mœbius reinvented the aesthetics of science fiction comics. With stories such as Arzach, Le Major Fatal, and many other short stories, Mœbius' work has had a worldwide impact on pop culture. Among the works compiled in this new collection, are two books that were originally published only once before, in the early 1990s, Chaos (which contains several paintings by Mœbius) and Chroniques Métalliques.

Benoit Peeters, François Schuiten & Alain Goffin

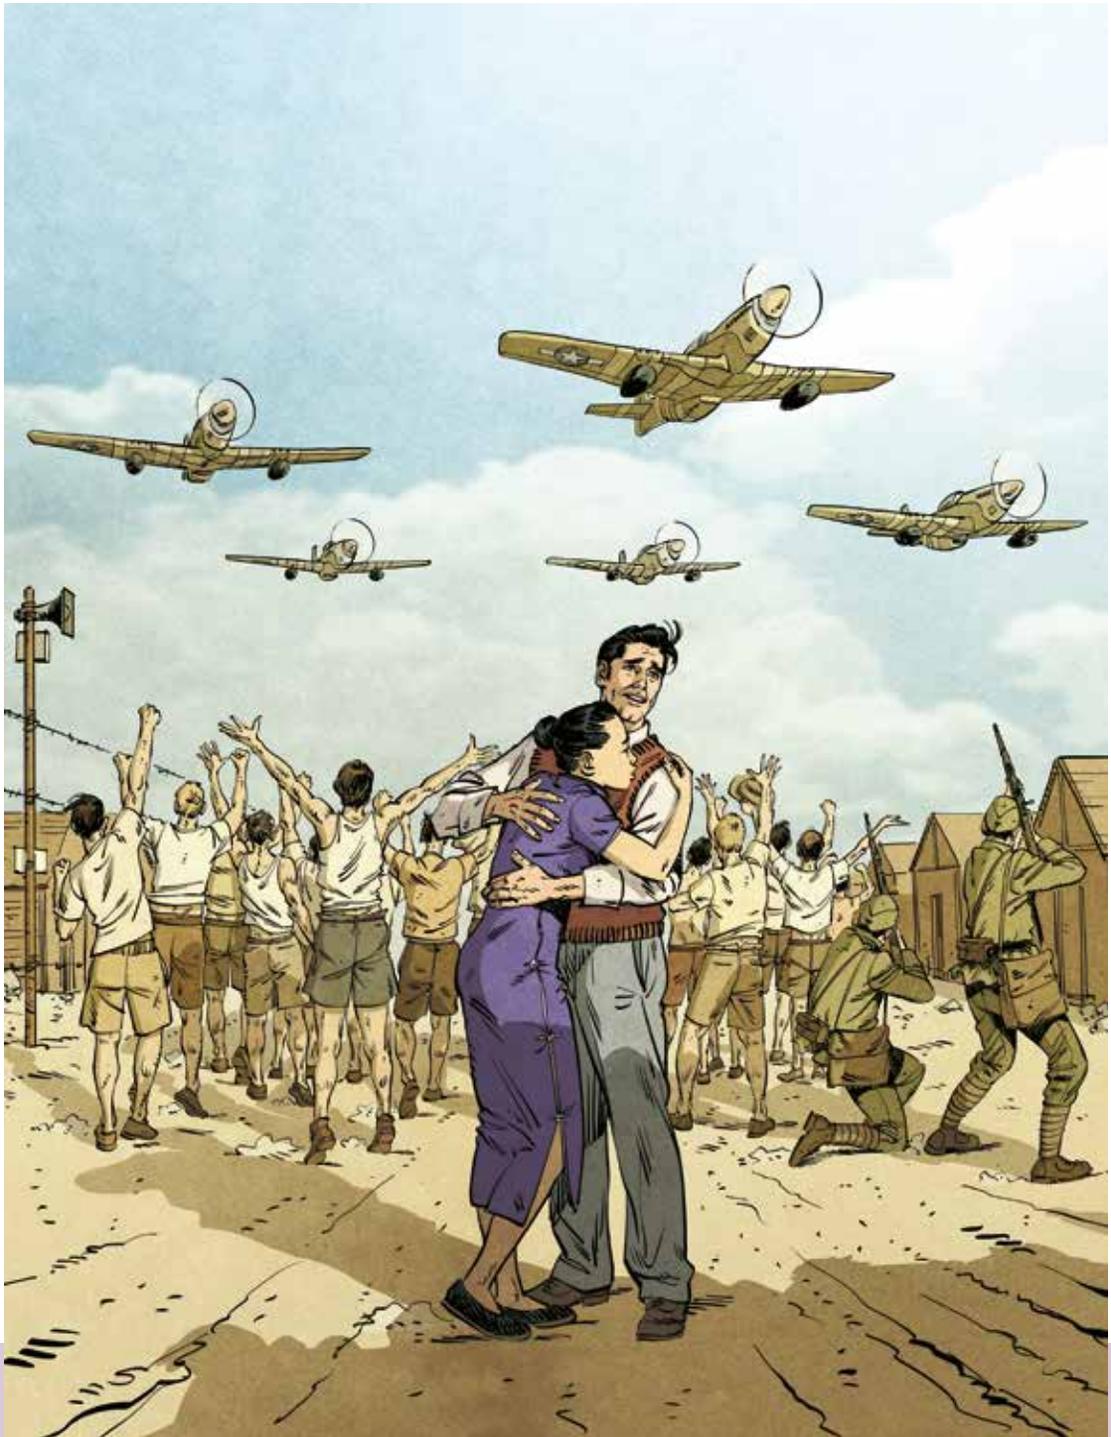

Format: 19 x 26 cm, hardcover, color, 160 pages, omnibus

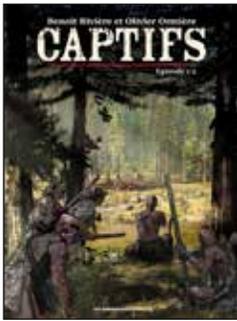

*This volume compiles three separate stories, all infused with the classic "ligne claire" style somewhere between E.P. Jacobs and Floc'h. Each story depicts a tale of crime or espionage, but tinged with a touch of the absurd and the bizarre. Plagiat! tells the story of a tormented painter, a victim of an imitator who seems to be more successful than the man he claims to be. Le Théorème de Morcom plunges us deep into the search for the prodigal "universal machine," after the suspicious death of its inventor. Lastly, Northreed Project (initially published by Dargaud), is set against the backdrop of the Cold War, and is a spy story where the very manipulation of reality is constantly at play, always present and always changing.*
